

Find A Way Through

Litmus A Freeman

Sun comes up, in light I'm drowned
And I'm spinning round and round
I don't know, where we go
But I'm going somewhere

Yesterday, got your way
Better things will come astray
Riding on, a big sine wave
Don't wanna go down there again

Chorus:

But you can find a way through (x 3)

Now you're up, now I'm down
Angry for the wasted time
Need to give, just to live
Nothing left to give to you

All you saw, was wanting more
Expectations run away
And what you see is all but me
And God you gave it all away

Repeat Chorus

With what you find in your mind you can find a way through (x 4)

Repeat Chorus
