

# Free Gypsy Girl

---

[Litmus A Freeman](#)

You came to know it was, time just to go  
Away from the life you had known  
Longing to 'Be' your, spirit set free  
From all of that world you'd been shown

## **Bridge:**

We met in a place of  
Free time & space  
To share our love free on the road

## **Chorus:**

Our free spirits need nature to be freed from the greed around us  
Now we feel our need and our spirits freed energies can ground us  
Now we are free of society and the chains that bound us  
I feel the soul of a Gypsy girl and the love surround us

Free Gypsy Girl

I came to know I was, fine on my own  
Never lonely, just happy alone  
Travelling free every, day being me  
Free of all the stuff that I'd owned

**Repeat Bridge**

**Repeat Chorus**

Free Gypsy Girl
