

# Hey Darlin'

---

[Litmus A Freeman](#)

Went with my calling to the beach  
Where I felt right at home where society don't reach to preach  
You were calling at the sea  
I felt a strong connection when you first held hands with me

## **Chorus**

There's so much left to learn and so much more to do  
So much to share, so much with you  
Hey darlin'

And when I hold you in my arms  
It feels so right like you're my lovely star blessed good love charm  
And now I've seen it in the stars  
I know our destiny was to meet again and share our hearts

## **Repeat Chorus**

So as the days go spinning by  
I'm getting closer yeah but I'm not at all afraid to die  
My love is stronger than their fear  
Even though I'm longer of tooth and hairier of ear

## **Repeat Chorus**

Now, as we face the Golden Age  
Let's turn our back on all the ignorance and hear the sage  
And ride on Mother Nature's dream  
Back home to the loving One, to share our learning of the stream

## **Repeat Chorus**

Hey darlin'  
Hey darlin'  
Hey Dani darlin'
