I yearned for something I'd got  
I learned something forgotten  
Patiently you waited watching me

Now that she's gone  
Maybe I'm wrong  
But you are the one I decided upon

## **Bridge:**

Ah ah when the feeling's gone  
And you think it'll never come back  
You knew there was something wrong  
Pulled me back, where I belong

## **Chorus:**

I Don't Need Her  
I Don't Need Her  
I Don't Need Her  
I Only Need You

I found myself on my knees  
Lost control of my feelings  
Selfishly I wanted her and you

Now that I'm here  
Maybe we're near  
To feeling the strength of our love re-appear

## **Repeat Bridge**

## **Repeat Chorus twice**

If you only knew  
What I've been through  
To be here with you

## **Repeat Chorus to end**
