

# Milky Top Up

---

## [Litmus A Freeman](#)

When you wake up in the morning  
And you stretch your arms out wide  
Rub the sleep out of your eyes now  
And hug the you inside

Maybe you got someone close yeah?  
To also hug each day  
Someone close to share a drink with  
To start another Happy New Day

But either way, I'm here to say  
There's something that you need to set you on your way

### **Chorus**

Milky, milky top up  
A little dash is all you need  
Milky, milky top up  
To make your coffee 'Kulle' the perfect morning feed

Put a cup of spring fresh water  
In a pan that's just the right size for the job  
Put the same size cup of milk in  
Heat that mixture on the hob

Coffee in the cups next, instant  
While the mixture's heating up  
When that stuff begins to bubble  
Pour it right in two, the cups

But one more thing I'm here to sing  
There's one more thing you need f' that perfect coffee 'ting

### **Repeat Chorus**

(Adlib Chorus to end)
