

Shut Up & Skin Up

Litmus A Freeman

All day, I have been driving all day
And all night, now I need a little respite

You have been gassin' all night
Spoutin' a right load of shite
But I will forgive you al-right
If you shut up and skin up

Chorus:

Shut up and skin up
Shut up and skin up
Shut up and skin up
Skin up for me
I need some more T.H.C
To save me from my reverie
And if you care anything for me
You'll shut up and skin up!

I'm so tired, I need an illusion inspired
I'm so drained, please help me out of my brain

There is between us a rift
But I'll say to you "ashta-blift"
If you roll me a fuckin' great spliff
If you shut up and skin up

Repeat Chorus

Yeah I need some more T.H.C
To save me from my reverie
And if you care anything for me
You'll shut up and skin up!

Shut up and skin up
Shut up and skin up
Shut up... and skin up...
Skin up for me
