

Song Love Song

[Litmus A Freeman](#)

You're my number one. we're having so much fun, I really love you Versey One
I've gone overboard, all other songs ignored, you've got all my favourite chords
But hold on! Is my love strong? I feel a change, in the song, coming on!

It's Chorus One, chorus chorusy one, I'm singing Chorus One
Dum dum, dumbadee dum, I'm loving Chorus One
Yeah I love you (and this jazzy D9)

When I first heard you, I really fell it's true, I fell in love with Versey Two
You're the verse for me, and that's how it should be, I can't imagine a versey three
But now you... have led me to, a chorus too, it must be called Chorus Two!

Chorus Two, chorus chorusy two, I'm loving Chorus Two
Scoobydoo doo, scoobadee doo, I love you Chorus Two
Chorus Two, two chorusy two, I love you Chorus Two
Yeah I love you

Oh but I'm falling in love with the Middle Eight now
It's a change in the song but not for long
And the chorus and verse, they would sound worse
Without the change you bring along

And now I see what's happening to me, I'm into Chorus Three!
Doobadee dah, doobadoo dee, I love you Chorus Three
Chorus Three yeah chorusy three, I love you Chorus Three

And now I'm sure there's got to be more, Yeah it's Chorus Four
On the song we're closing the door, Singing Chorus Four
Chorus Four, four chorusy four, I love you Chorus Four

I'm gonna strive to keep it alive, by singing Chorus Five!
Chorus Five yeah chorusy five, I love you Chorus Five
(etc etc to fade...)
