The Whale and Octo - pus were friends
They met one day near - by the shore
The Octo - pus could not pre - tend
He liked that Whale more and more

They swam to - gether when they could
When - ever Whale was free to go
And Octo - pus he under - stood
The things that Whale would like to know

And Octo - pus would love to wrap eight arms a - round her

And hug her tightly as she came and went

| **Am7** | **D** | **G** **D/F#** | **Em** **Em7** |

And in those moments there e - xisted whole lifetimes

| **Am7** | **D** | **G** **Gsus** | **G** |

That to - gether they had spent

They talked for hours when they met
And shared their stories of the sea
And as they talked the Sun would set
Then Whale had somewhere else to be

| **Am7** | **D** | **G** **D/F#** | **Em** **Em7** |

And Octo - pus would love to wrap eight arms a - round her

| **C** | **D** | **G** **Gsus** | **G** |

And she'd hug him tightly as she came and went

| **Am7** | **D** | **G** **D/F#** | **Em** **Em7** |

And in those moments there e - xisted whole lifetimes

| **Am7** | **D** | **G** **Gsus** | **G** |

That to - gether they had spent

| **Em** **D/F#** | **G** **Asus2** | **Cmaj7** | **Bm7** |

So what be - comes of our two friends?
The times they share are 'qua - li - tea'
No words are written for the end
So we'll just have to wait and sea...
