

Under My Skin

[Litmus A Freeman](#)

E(no3rd)+7* /**D**
 I thought the future was there for me to see
 A vague idea of con - tentment beneath the trees
 /**B** /**A** **E***
 All thoughts of longing lost lovingly at sea, Loving me

E* /**D**
 My little planet was sailing through the skies
 Delicately balanced till you praised me with your eyes
 /**B** /**A** **E***
 Struck like a meteorite & churned me up inside deep in-side

And can you feel, my first ca- resses on your skin
Em9 **Dsus2**
CM7 **Bm7**
 Antici - pation, of our first kiss as you close in
Am7 **Bm7** **CM7** **D**
 And the taste of our lips slowly lingering Now it begins
E / **[E* /D] x 2** /**B** /**A** **E***
 You're under my skin

E* /**D**
 Now I'm floating as the river rushes in, Our
 energy connected cannot possibly be sin
 /**B** /**A** **E***
 Just want to teach your inner beauty how to swim You're under my skin

And I can feel, your skin against my skin
Em9 **Dsus2**
CM7 **Bm7**
 Just want to talk to you 'cause there's so much more within
Am7 **Bm7** **CM7** **D**
 But want you to feel, me ca - ressing your soft, soft skin

And I can feel, you moving next to me
Em9 **Dsus2**
CM7 **Bm7**
 And with my eyes closed, you're all that I can see
Am7 **Bm7**
 And I know the future, has changed for me

Since you sailed in **D** **CM7** **Bm7**

 Your Eyes... I'm falling in...
