

Without Walking

Litmus A Freeman

www.projectfreeman.com

Even though I try and make my way around the world

I can get there without walking anywhere at all

I can have a ball

Without Walking

I can find my peace of mind is here inside my head

Even though the walls are falling all around my bed

I'm safe inside my head

Without Walking

Without Walking

You can close your eyes and find you're anywhere you like

In another world where people lightly tread the floor

Catch me when I fall

Without Walking

Without Walking

If you want to join me here then leave your shoes outside

Tuck your judgement underneath your socks and share your mind

We'll see what we can find

Without Walking

Without Walking
