

## Worlds Apart

Litmus A Freeman

---

You and I share a cosmic world  
A private place  
Of our own design  
Where we share many special things  
Where my love is yours  
And yours is mine

### **Chorus:**

Let's keep our world forever  
Whenever we're together  
And hide it here every time we part  
For time for ourselves and others  
And maybe other lovers  
And we can go on as we meant to start  
But let's keep  
Those other worlds apart

In our world I love to hold you close  
To say goodnight  
And again when we awake  
In our world the love we give to each other  
Is greater than  
The love we take

### **Repeat Chorus**

Instrumental

### **Repeat Chorus**
